

## Model No. : OEM-J401/YZ35-II

### Product Introduction

YZ35-II pump head housing is produced with high-pressure die-casting aluminum, ensuring high strength and good consistency.

Equipped with a standard electromagnetic sensor that outputs a cover-open to stop signal to enable the cover-open to stop function.

The optimized tubing clamp structure allows for easy installation and removal of the tubing, preventing abnormal damage to the tubing.

Added a lever limiter to securely fix the lever, preventing loosening

### Typical Application

Large volume transferring and dispensing
