

Model No. : OEM-JT501/YZ35-II

Product Introduction

YZ35-II pump head housing is produced with high-pressure die-casting aluminum, ensuring high strength and good consistency. Equipped with a standard electromagnetic sensor that outputs a cover-open to stop signal to enable the cover-open to stop function. The optimized tubing clamp structure allows for easy installation and removal of the tubing, preventing abnormal damage to the tubing. Added a lever limiter to securely fix the lever, preventing loosening

Typical Application

Large volume transferring and dispensing
